

“Pebble” is an organically-shaped seating sculpture that is both furniture and art. It is a fusion of function and design.

Pebbles are crafted in four contrasting materials:

Wood: organically shaped layers of plywood

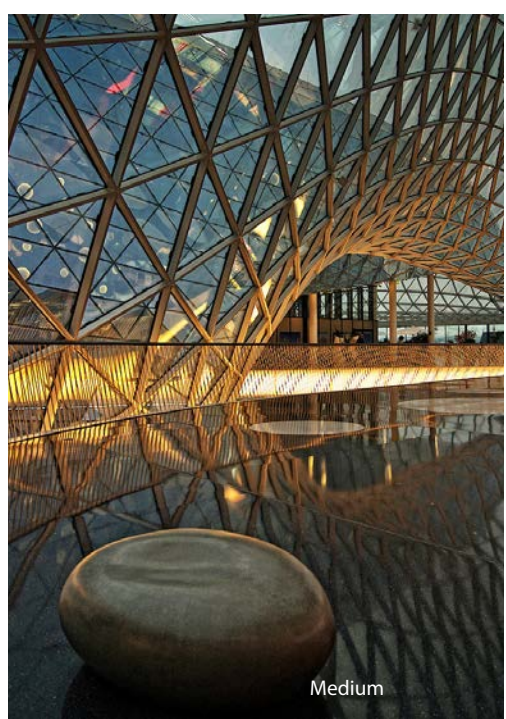

Cast Stone: pure curves in all-weather lightweight concrete

Fabric: soft and plush with indoor and outdoor options

Fiberglass: smooth, vibrant, high-gloss and waterproof

“Pebble” is an organically-shaped seating sculpture that is both furniture and art. Pebbles can be featured as individual seating sculptures or in groups to be arranged in many configurations; they become installations of art and functional resting areas in their assembly.

Specifications

Construction:
Molded fiber-reinforced light-weight concrete with integral color pigment. The shell is approximately 1/2” thick.

Uses:
For indoor and outdoor use. Durable in any climate.

Finishing:
Available with standard gray tones as well as custom colors.
